## EXPERIENCE

---

### JavaScript & PHP Debugging as Freelance

Nov 2022 - Present

Meticulously inspected and fixed any potential errors, vulnerabilities, or malicious code in the codebase to ensure smooth and secure website operations for users.

### Brand Identity Design as Freelance

2019 - 2021

Delivered unique and visually appealing logos, banners, stationary designs, and user interfaces to effectively communicate the brand's message and values to its target audience.
